Abstracts from the Chemical Specialties Manufacturers Assn. 46th Annual Meeting. 1, 34
Abstracts from the First Congress of Cosmetic Chemistry. 9, 55
Abstracts from the Soap and Glycerine Producer's Assn. 2, 43
Abstracts from the Scientific Meeting of the Society of Cosmetic Chemists, Nov. 29, 1960. 12, 44
Abstracts from the Scientific Section of the Toilet Goods Assn. Nov. 20, 1960. 12, 42
Abstracts of the papers given at the Spring meeting, Society of Cosmetic Chemists. 7, 50
Adapting a fragrance theme to a "line". J. R. Elliott. 6, 66
Advantages and disadvantages of titanium dioxides; role of the organophilic titanium oxides. Rene Albo. 12, 35
Aerosol cleaning aids. J. W. Baer. 10, 63
Aerosol containers. Jack Pickthall. 10, 57
Aerosol foam; Quick breaking–. Thomas A. Wallace, Jr. 10, 85
Aerosol laboratory; Setting up an–. William Scheck. 10, 71
Aerosol valves. A. Herzka. 10, 87
Aerosols in cosmetics and pharmacy and compatability test. Otto Jacobi. 10, 65
Aerosols; New drug applications for–. Julius Hauser. 10, 70
Analysis of essential oils and related products; Instrumental–. 3, 38

B

Bergamot oil; A modern approach to the evaluation of–. F. C. Thiele, D. E. Dean and R. Suffis. 6, 103
Biological tests demonstrating the activity and cosmetic applications of the total human placenta. A. Bureau. 4, 37
Bis-phenols; Chemical structure and antimicrobial activity of the–. William S. Gump & George R. Walter. 9, 33

C

Calamine lotion; its place in cosmetics and medicine. George DeKay. 9, 27
Canadian Cosmetic Patents. M. J. Marcus. 2, 27
Certified colorants: some color and colorant problems met when revising formulae. William H. Peacock. 11, 25
Chamomile flowers. George Meer, Jr. & William A. Meer, Ph.D. 11, 38
Chemical problems concerning the perfuming of aerosols. P. H. Witjens. 10, 49
Chemical structure and antimocrobial activity of the Bisphenols. William S. Gump & George R. Walter. 9, 33
Cold permanent wave based on thiolactic acid; A–. Anatole Vesterman. 7, 19
Cold versus hot fill process. R. A. Foresman, Jr. 10, 81
Comparison of hair and textile coloring; A–. H. Wilmsmann. 5, 41
Consumer panel for fragrance evaluation; The qualified–. Donald H. Bush. 6, 59
Containers; Developments in rigid and semi-rigid–. John M. Sharf. 1, 21
Contribution to the identification of the estrogen activity in hops; A–. A. Zenisek & J. Bednar. 5, 61
Corrosion in aerosols; Inhibition of metallic–. K. Klausner. 10, 53
Cosmetic considerations in the development of Crest toothpaste. D. S. Barrie. 12, 33

D

Decomposition of medicaments due to excipients and containers, and its prevention. T. D. Whittet. 3, 28
Development of the Grasse aromatic industry. Jacque Maisondieu. 6, 93
Developments in rigid and semi-rigid containers. John M. Sharf. 1, 21
Dihydroxyacetone on the skin; Factors influencing the tanning effect of–. Nelson Kanas, John Buchter & Fred J. Bandelin. 11, 33
Dihydroxyacetone with proteins; The reaction of–. John Buchter, Fred J. Bandelin & Nelson Kanas. 12, 46
Dihydroxyacetone "sun tan". Leonard Barmak. 3, 57
"Donomen"–A new nomenclature system for chemicals and pharmaceuticals. E. C. S. Little. 2, 34

E

Effect of sorbic acid and other preservatives on organism growth in typical nonionic emulsified commercial cosmetics; The–. R. D. Charles & P. J. Carter. 4, 55
Elsholtzia oil and its application in perfumery. Dr. Horst Schmidt. 4, 33
Emulsions in theory and practice. 3, 49
Essential oils and their use in perfumery; The "rarer"–. Dr. Oliver L. Marton. 6, 79
Essential oils; Pharmacological properties of some–. Jovan Tucakov. 6, 85
Estrogen activity in hops; A contribution to the identification of the–. A. Zenisek & J. Bednar. 5, 61
Evaluation of deposits from pressurized sprays. A. H. Yeomans & R. A. Fulton. 2, 58

F

Factors influencing the tanning effect of dihydroxyacetone on the skin. Nelson Kanas, John Buchter & Fred J. Bandelin. 11, 33
Fatty acids and derivatives in cosmetic formulations; The scope of–. Gabriel Barnett. 3, 25

Flavoring preparation; Methods for dispensing aerosol–. Philip Meshberg. 10, 51
Florida coldpressed murcott oil. J. W. Kesterson & R. Hendrickson. 11, 35
Flow properties of dry particulates. E. J. Crosby. 9, 43
Fluorocarbon propellent chart. 10, 82
Formulation of a sun-protective make-up base; The–. Susan Torrico & G. L. Sperandio. 9, 49
Fragrance evaluation; The qualified consumer panel for–. Donald H. Bush. 6, 59
Fragrance theme to a "line"; Adapting a–. J. R. Elliott. 6, 66
Fundamental research for the composition of lipstick substances. G. A. Nowak. 5, 53

G

Grasse aromatic industry; Development of the–. Jacque Maisondieu. 6, 93

H

Hair and textile coloring; A comparison of–. H. Wilmsmann. 5, 41
Hair colouring; Microscopic examinations on–. Siegfried Preisinger. 7, 27
Hair-dyes in stick form; Oxidation–. R. Heilingotter. 5, 19
Hair sprays–past, present, future. M. J. Root. 10, 43
Hair with acid solutions; Protection of hydrogen peroxide bleached–. P. Flesch. 5, 25
Helena Rubinstein, Inc.; Company profile–. Jill Jessee. 7, 36
History of Perfumes. H. Gribou. 6, 87
Household specialities; Perfuming of–. Walter J. Stone. 6, 71

I

Inhibition of metallic corrosion in aerosols. K. Klausner. 10, 53
Instrumental analysis of essential oils and related products. Edward E. Langenau & James A. Rogers, Jr. 3, 38

K

Kolar Laboratories marks 50th anniversary. 1, 24

L

Lanolin derivatives. Hans Wagner. 7, 23
Lecithin in Cosmetics. Harold Crooks. 12, 39
Lipstick substances; Fundamental research for the composition of–. G. A. Nowak. 5, 53
Lotion and cream sachet. Walter A. Taylor. 6, 69
